

Advertising on curacaolegalportal.com

Soon you will be able to promote your organization on curacaolegalportal.com. This can be done in different ways.

Homepage

One possibility is to place your advertisement; this way visitors will be able to read it immediately.

Item-related

You can also place specific advertisements matching with menu items. For example: if you wish to promote a law office, you could either place an advertisement directly on the main page of Legal Contacts, or in a separate page, adding a sub-item on the main page referring to, e.g., Law Firms Curaçao. Depending on the menu item, non-legal organizations (such as, e.g., travel organizations) can also place an ad on our website. Ask the webmaster about the possibilities.

Personal page

In Legal Contacts you can find business cards, behind which you can promote your company on an individual page, e.g., by placing your logo, a description of the company's activities, as well as a link to your website.
